

St. Osmund's Year 6 - Spring Half Term Pre-Learning Tasks

In order to prepare for the following half term's work it would be beneficial if you could undertake as many of the tasks listed below as possible.

Tasks are linked to developing fluency in mathematics, our Olympic Reading Challenge and next term's geography topic 'Trade'.

Geography vocabulary

Next half term we will be looking at 'Trade' in geography. Find out the meanings of these words and think about how you could use them next term in your writing.

Trade, import, export, commodity, globalisation, fair trade, supply chain, primary sector, secondary sector, tertiary sector, infrastructure, containerisation, supply and demand, resources and economic development.

Mathematics - SATs revision & TTRS

This half term is the perfect opportunity for you to re-visit the BBC SATs links on google classroom. This would be particularly beneficial to those of you who have not looked at them yet.

Please also continue to visit TTRS to attempt the 2026 challenge of 2,026 seconds a week for twenty-six weeks.

Reading

Remember that this year is the 'Year of Reading for Pleasure' and we have our very own Olympic Reading Challenge at St Osmund's. Aim to read every day over the half term.

Here are some titles that you might enjoy. Try and pick one or two:

How to Save the World with a Chicken and an Egg by Emma Shevah

The Uprising - The Mapmakers in Cruxia by Eirlys Hunter

Absolutely Everything by Christopher Lloyd
Vi Spy: Licence to Chill by Maz Evans
