

St. Osmund's Year 1 - Summer 2 term Pre-Learning Tasks

In order to prepare for the following half term's work it would be beneficial if you could undertake as many of the tasks listed below as possible.

These tasks are all linked to the text and topic we will be looking at in the classroom and will give you a background to the themes under investigation. At this stage you don't need to know the name of the book.

This work will not be marked but any work presented could form the basis of a classroom display or a discussion point.

Build a space rocket using any materials or resources you would like!	Choose a day in the holiday and keep a diary of what you do at different times of the day. Really focus on what time it is.	Have a discussion with your friends and family: What would be the best part of going into space?
